PROJECTS

AssistAI: AI SaaS Application with Subscription Billing | PERN Stack | [Live](#) | [Code](#) | *PostgreSQL, Express, React, Node.js*, Clerk, Neon, OpenAI, Cloudinary

- Built a scalable AI-powered SaaS platform offering multiple AI tools including article generator, blog title generator, image generator, background remover, object remover, and resume analyzer.
- Integrated **Clerk authentication** for secure sign-up/sign-in and profile management. Implemented **subscription-based billing** with premium access control for AI features
- Used **Neon Serverless PostgreSQL** for efficient and cost-effective database management. Integrated **OpenAI API** for text-based AI features and **Cloudinary** for image processing and transformations.

Yeddit – Blog and Video Sharing Platform | [Live](#) / [Code](#) *Next.js, TypeScript, Material UI, MongoDB, JWT, SSR*

- Built a full-stack blog platform for users to post content and embed YouTube videos with support for likes, dislikes, and comments.
- Implemented JWT-based authentication using cookies and tokens; enabled secure access and role-based user/admin panels. Used Next.js with server-side rendering (SSR) for performance optimization and SEO benefits.

SocialXn HelpDesk - Manage your tickets/ [Live](#) / [Code](#) *Next.js, JavaScript, Tailwind CSS, Node.js, MongoDB, JWT*

- Full-stack web application allowing users to login as Admin, Agent, or Customer. Customers can submit tickets and receive comments. Admins can assign tickets to Agents, Agents can view and manage assigned ticket.
- Role-based authentication and authorization (**JWT-based**) for secure access. Search and filter functionality for tickets and agents. Customers can **submit support tickets, track progress, and receive comments** from agents.

Chit-Chatter: Real-Time Chat Application | [Code](#) *Next.js, Tailwind CSS, Node.js, Socket.IO, MongoDB, JWT*

- Developed a full-stack chat application with real-time messaging using Socket.IO and REST APIs.
- Enabled secure user login with JWT authentication for both individual and group chat features.
- Enabled resettable daily conversations while retaining past chat history.
